"The King's Daughters" is the name of an organization which was established by a handful of good women in 1886, only three years ago, and which now numbers about 92,000 members. It is composed of bands of Christian women and girls, ten being the required number for a band. The object of these women is the cultivation of the Christian graces, faith, hope and charity, in their own hearts and in the hearts of those they can reach by example and aid either spiritual or temporal. In fact, they do "Whatever their hands find to do." Their motto, perhaps, is as good an explanation as one could wish: "Look up not down; out, not in; forward, not backward; lend a hand." The badge of the order is a silver maltese cross bearing the initials I. H. N. (In His Name), often accompanied by a bit of the royal crown, purple. A band has been organized in this city.

Swift Justice.  
Fred. Bullis, the man who has been guilty of horse stealing in more instances than the taking of the horse and buggy from Chas. Van Hyning of this city, was captured in Defiance county on Wednesday last, brought to Napoleon jail that day, a special grand jury impaneled Thursday morning to hear his case, was indicted, and at 2 o'clock Thursday afternoon was sentenced to the penitentiary for eight years at hard labor. That was indeed retributive justice. Bullis is a married man, probably 28 years old, his wife being now an inmate of the Henry county infirmary. He is evidently a bad character, and has been in the pen before.

## Mangled by the B. &amp; O.

An unknown man, supposed to be a teacher at Hamilton's school near Hamlet, was run over by the cars and sent into ghastly agony Monday night. The body was found on the track early Tuesday morning mangled into an unrecognizable mass and it is supposed several frames passed over it during the night. Pieces of the clothing lead the citizens to believe it was a teacher as above mentioned as such one left Hamilton in the evening going east on the B. & O. The head was literally ground to pieces and the arms and legs cut off—supposed to be another case of the accursed effects of whiskey.

Since the above was put in type we learn that the man's name is Sands and his father resides near Hixco's mill, Holgate Times.

Mr. Sands was formerly a resident of Napoleon; while here he worked in Bruner's factory.

Valuable Information.  
There are many, many things, that it is very important everybody should know and yet there are some things more important than others. In these times, when everything which the farmer raises, sells low, it is very important that he should know his means and buy everything, which he has to buy, just as cheap as possible. There are some things which relate to good health, which are not often thought of and which are about as important as warm clothes, and that is a few of the most staple health restoratives. If you will go to San & Balesley's Drug and Medicine Store and invest in a few boxes of pills, two or three bottles of the best remedies for the cure of coughs and colds, a small quantity of rheumatic and neuralgia medicines, you will find that they do not cost much and they may, if used in time, save you lots of trouble and perhaps a long spell of sickness.

Paste this programme in your hall until the appointed time, then bring it with you. Appropriate music will be interspersed with the exercises.

WHELAN, Death has entered our circle and removed from our fellowship our highly esteemed brother, Henry K. Fenton. Therefore,

Resolved, That a copy of these resolutions be presented to the Grange Bulletin, the Democratic Northwest and Henry County Signal for publication.
